Anti-Vandal Case for 'SD Evolution' Range   CSA-AVC3

Specially designed and developed for use with the SD Evolution range, the new Anti-Vandal Cage incorporates a hinged top cage to simplify and ease installation. Manufactured in the UK from powder coated steel, the cage is light yet robust and aesthetically designed to blend in with most ceiling finishes.

The CSA-AVC3 is supplied complete with the following:

- 1 off M4 x 12mm Zinc Plated Allen Screw
- 1 off M4 Zinc Plated Washer
- 2 off M4 x 12mm Zinc Plated Machine Screw
- 2 off M4 x 16mm Zinc Plated Machine Screw

Installation Guide

The CSA-AVC3 is designed to be installed directly onto a ceiling or onto a conduit box.

Please consult the diagram before beginning installation.

1. Fix the cage to the ceiling using installation holes marked B Or fix to a standard conduit box.
2. Mount the SD Evolution product taking care to note the orientation. The product speaker must be at the top in the same orientation as the drawing opposite.
3. Use the M4 x 16mm screws to fix the product to holes C
4. Use the M4 x 12mm screws to fix the product to holes D
5. Insert batteries into the SD Evolution product and fit the product lid.
6. Close the cage lid over the SD Evolution product and fasten to the back plate using the M4 x 12mm Allen Screw and washer.

Your installation is now complete.
