

## Wireless Press to Call

S1705W

Wireless wall mounted press to call button in white ABS complete with a single gang mounting box.

Battery status is monitored by the control panel. When the battery requires replacing, the control panel will indicate a fault. When fault is indicated replace all batteries within the system. The system should be tested monthly and we recommend that all batteries are replaced every twelve months.

**This wireless unit is specifically designed for use with our Wireless Aidalarm Disabled Toilet Alarm systems.**

## Benefits and Features

- Wireless Technology 433MHz
- Battery powered
- Battery status monitored by controller
