

## Fuse Boards

S348-4

A PCB fuse board module for splitting power from a low voltage power supply (1-30v ac or dc) into 4 individually fused outputs. 500mA fuses are provided but can be changed on site as required.

Specification	S348-4
Led Current	N/A
Switch Contacts	N/A
Visual Indication	N/A
Integral Sounder Level	N/A
Supply Voltage	1-30v ac or dc
Supply Input Current	8A max
Tamper	N/A
Material	PCB module
Weight	0.04kg
IP Rating	N/A
Approvals	UKCA and CE marked, ROHS compliant

#### Benefits and Features

- Four holes also provided for permanent fixing
- Manufactured in the UK
- Nylon pillars are provided
- Also available with 8 fused outputs
